I WISH YOU LOVE is Arthur Lyman's tribute to the popular subject of all music—Love. It is said that love makes the world go 'round—without a doubt it makes this recording "go 'round."

In his many personal appearances, the romantic and personable Lyman has had particular appeal for feminine listeners of all ages. This charm is a sort of personal magnetism accented by a movie idol appearance, but without any particular intent, and unaccompanied by the twisting and carrying on of the many popular purposeful charmers. Obviously Arthur Lyman gets through to girls young and old; in fact to everyone, with much natural personal appeal and sensual sounds. They don't "swoon," but they do return night after night, which is better, completely fascinated.

In many of the love songs played here by Arthur Lyman and his group, you'll get a personal rapport, a feeling of "this is just for me"—the experience, the feeling, and the understanding you're looking for. Here are love songs of all kinds and meanings, with new Arthur Lyman excitement for all love and lovers everywhere.
